

# THE BROADCAST TVSEMINARY UPDATE

Friday

March 3, 2023

In this Issue:

- **Chinese Update**
- **Nebraska Event Announcement**

Hello friends of TVSEMINARY,

We are grateful to be partnering alongside you in this important work!

Thank you for praying and supporting us so faithfully.

The relentless Chinese regime is intensifying its control of Christianity, persecuting Christians by the incarceration of clergy and congregation members, destroying church buildings, and removing crosses from places of worship.

In defense of their actions, government officials have told heads of churches registered in China: **“The crosses are eye-catching and attract people into the buildings to worship.”**

# The State of Christianity In China Isn't Improving

TVS classes ensure the gospel is preached  
in spite of the difficulty

Maybe you have read Brother Yun's book "The Heavenly Man"? It is an impressive testimony of his life as a Christian evangelist in China from 1974 to 2001. The harassed Church of China is watered by the seeds of its martyrs

and courageous leaders like Brother Yun. The book is a suspenseful adventure where he honestly conveys his personal journey as a house church leader of the faith and his view over his ministry failures and stubborn self-will.

Today, there is more need for leaders and pastors in China who can carry on Yun's legacy and continue spreading hope and faith to those desperate for Jesus. This inspired TVSEMINARY's goal to educate new church leaders in areas where Chinese is spoken.

In 2021, we asked you to help us instruct these leaders through our courses. With your help, we raised \$85,000 to fund the translation of several classes into Chinese. One translator in TEDS Chicago and two in China have been working on completing the courses in the queue. Translators in China are risking their freedom to help with the project.

## Who's Watching NOW & Our Future Plans to Distribute the Classes?

When keywords words are entered in a **Google search** by a seeker of information, the lecture titles of our classes cause the course to pop up. There were **3,200 views on YouTube outside of China** of our newly uploaded courses in Chinese in the last three months. Thousands of people needing help with spiritual matters find our classes from a google search.

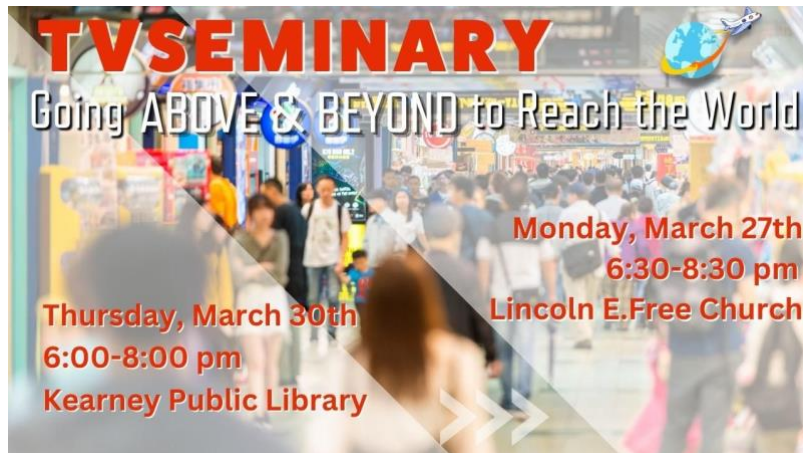

YouTube is not tolerated in China, but **three schools are discretely standing by** to upload the lectures for their curriculum and underground Bible study groups.

A key staff member at TEDS, Chicago, with contacts in Singapore, Taiwan, and Hong Kong, will help distribute to Chinese-speaking regions that are difficult to penetrate with the Gospel.

## Attention, All Nebraskans!

We are excited to announce two upcoming Fundraising Dinner Events in Nebraska. Both are ideal places to hear the details about the work of TVSEMINARY. Our president VP will stream in for a time of Q&A. Registration is Required; CLICK on the event location you prefer, and we look forward to seeing you there!
